AL THAATY GROUP (CHEMICAL DIVISION)

ATG is a professionally managed and highly specialised water treatment chemicals and service provider company. Al Thaaty Group (ATG) has the years of practical experience to offer you the solutions for industrial water born problem.

Our line of products are: -

Boiler Water Treatment Chemicals
Steam Condensate Line Treatment chemicals
Cooling Water Treatment Chemicals
Antifoulants, Biocides, Corrosion Inhibitors
Pre Operational Flushing and De scaling work
Disinfection of Hot and Cold Domestic Water Services
Oxygen Scavengers
Scale Inhibitors
Chemical and Microbiological analysis of water
Analysis and control program for Legionella Pneumophilia for HVAC
Water treatment program consultancy

Our R & D team is developed a complete line of proprietary formulations for the treatment of water related problems and devoted for continuous improvement. Our products include chemicals for boiler, cooling tower and chiller water to treat the corrosion, sludge, scale, and biocides.

We offer tailor made solutions after doing complete system survey.

Complete Water Treatment Company

Al Thaaty Group is a professional private company engaged in the marketing of specialty chemicals for the industrial water.

Through R & D efforts **Al Thaaty Group (ATG)** has developed specialty chemicals of International standards to address specific industrial water born problems. Our products are superior in quality.

Purchasing ZION® means you buy actual solution of the problem along with satisfaction and reliability.

We are committed to provide our customers excellent and immediate services through a highly motivated, technically competent and professionally experienced team of Sales & Services Engineers around the clock.

Devoted to bring the latest in the water treatment chemicals field and dedicated ourselves to continuous improvement in quality and services.

We have complete line of proprietary formulations for the waterside treatment. ZION® Products

range includes water treatment chemicals for cooling tower, boiler and closed circuit recirculation water applications like corrosion and scale inhibitors, biocides, oxygen scavengers, neutralizing amines. **Al Thaaty Group (ATG)** offers the solutions based on new technology. The continuous and unparallel support of our valuable customers has brought us in a position that we can formulate tailor made solution. **Al Thaaty Group (ATG)** representative analyze the needs of customer's particular system and design the specific water treatment program. Experienced is required to select the proper program that is why our representative brings the extra measure of expertise. **Al Thaaty Group** profile just gives little glimpses of water treatment. We are always ready to assist and suggest customer's maintenance team in water treatment field free of cost.

Products

BOILER WATER TREATMENT CHEMICALS

Scale Inhibitor & Sludge Conditioner

- Scale Preventive & Sludge Conditioner

Dispersant For Normal Conditions (Polymer Based)

- Alkalinity builder and pH regulator

Dispersant For High Alkalinity

- Catalyzed Oxygen Scavenger / Corrosion Inhibitor

Hydrazine Based Oxygen Scavenger

- Return Condensate Line Treatment

COOLING TOWER WATER TREATMENT CHEMICALS

Scale & Corrosion Inhibitor (Less hardness water)

- Scale & Corrosion Inhibitor (High hardness water)

Scale & Corrosion Inhibitor (Polymer Based)

Multipurpose Dispersant for normal alkalinity

Multipurpose Dispersant for high alkalinity

- Corrosion Inhibitor (Open Circuit)
- Corrosion Inhibitor (HVAC, Water Cooled Chiller)

- Corrosion Inhibitor (C.C.)

BIOCIDES

- Oxidising compound base biocide
- Non oxidizing compound base biocide
- Broad Spectrum biocide
- Agaecide
- Bio-Dispersant
-

DESCALING / PASSIVATORS/ PRE OPERATIONAL FLUSHING CHEMICALS

- Descaling Compound for Boiler, Water heater

Descaling Compound for Evaporator

- Descaling Compound for heat exchanger copper tube
- Passivator After Descaling
- Cleaning Compound for HVAC System
- Scale Softener (Prior To Descaling)

R.O. WATER TREATMENT CHEMICALS

- R. O. Antiscalent

DOMESTIC WATER TREATMENT CHEMICALS

Scale & Corrosion Inhibitor for domestic water

WATER TREATMENT EQUIPMENTS

- Automatic chemical dosing pump
- Chemical tank
- Chemical dosing pot
- Water testing kits
- TDS controller
- Water Softening plant

WHERE TO USE

INSTITUTION WHERE PRODUCTS CAN BE USED

- Petrochemicals Industries
- Oil Refineries Industries
- Biscuit Manufacturing Companies
- Plastic Products Manufacturers
- Carpet Producing Companies
- Paint Manufacturing Companies
- Power Plants
- Dairies and dairy products Manufacturing Companies
- Printing Works
- Pulp and Paper Mills
- Edible Oil Factories
- Rubber Products Manufacturer
- Fertiliser Factories
- Food Manufacturers
- Soap and Detergent Manufacturers
- Soft Drink Manufacturers
- Spinning and Weaving Factories
- Steel Works and Rolling Mills
- All Big Hospitals
- Sugar production and Refining
- All Big Hotels
- Textile Producers
- All Malls
- ALL Universities
- ALL Mining Companies
-

SERVICES

Success of water treatment program is directly proportional to quality of services. Providing services to customers after sales is integral part of our Policy. To achieve this goal we have created a separate team for the services. Our service engineers make on site analysis free of cost and provide written reports with relevant comments and required necessary remedial actions.

We offer following services:-

- Chemical Analysis of boiler, cooling tower and closed circuit water
- Microbial analysis of above water

مجموعة الذعاتي
AL THAATY GROUP

- Pre operational flushing of boiler, cooling tower and HVAC systems
- Disinfection of domestic water systems
- De scaling of boiler, heat exchanger and other heat transfer equipments
- Water treatment program training
- Consultancy in the field of water treatment
